

CHEVRON/ BECTEL - WHEATSTONE LNG PROJECT

Date: Oct 2016 – March 2019

Client: Rio Tinto Iron Ore – Marine Division

Value: \$95m

Project Owner: Chevron

SCOPE DESCRIPTION

KBSS was engaged by Bechtel to supply specialist trades for Construction and commissioning services.

The scope of works included:

- > Provide project management support
- > Provide Engineering services
- > Provide Specialist welding teams
- > Provide Electrical and Instrumentation Fitters
- > Provide Mechanical teams
- > Provide support during constructional and commissioning phases

HIGHLIGHTS

KBSS originally started onsite with a small crew of 6 Specialist Onsite machining crew all being locals from Karratha. Due to the ongoing success and performance of our crews, our peak manning on the Project was 280 direct employees with KBSS managing all Recruitment, Mobilization and logistics of our workforce.

KBSS are constantly receiving glowing reviews from both Bechtel and Chevron Management which are available upon request.
